This report on form 8-K may contain forward-looking statements within the meaning of the federal securities laws. These statements reflect Inverness current views with respect to future events and are based on management s current assumptions and information currently available. Actual results may differ materially due to numerous factors including, without limitation, risks associated with the timing of and costs of financing commitments and general competitive factors, market and economic conditions generally, the demand for the acquired products, the ability of Inverness to successfully develop and commercialize the acquired products, the risks and uncertainties described in Inverness annual report on Form 10-K, as amended, for the period ended December 31, 2006, and other factors identified from time to time in its periodic filings with the Securities and Exchange Commission. Risks and uncertainties relating to the proposed transaction include without limitation the risks that: Biosite will not terminate its merger agreement with Beckman Coulter; Biosite will not enter into any definitive agreement with Inverness or, if entered into, that the terms of any agreement will be materially different from those described above; Inverness will not obtain the requisite debt financing for the transaction; the anticipated benefits of the transaction will not be realized; the changes to infrastructure will not be realized or will cost more than anticipated; Inverness financial results will be different from those anticipated when the effects on cash-based EPS were calculated; the closing conditions to any transaction that may be entered into are not realized; and the proposed transactions will not be consummated. Inverness undertakes no obligation to update any forward-looking statements contained herein.

Additional Information About the Proposed Transaction and Where to Find It:

This material relates to a business combination transaction with Biosite proposed by Inverness, which may become the subject of a proxy statement filed with the Securities and Exchange Commission (SEC). This material is not a substitute for the proxy statement that Biosite would file with the SEC if any agreement is reached.
