**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**JANUARY 31, 2009**  
**(UNAUDITED)**

**1. BASIS OF PRESENTATION**

National Beverage Corp. develops, manufactures, markets and distributes a complete portfolio of multi-flavored soft drinks, juice drinks, water and specialty beverages throughout the United States. Incorporated in Delaware in 1985, National Beverage Corp. is a holding company for various operating subsidiaries. When used in this report, the terms we, us, our, Company and National Beverage mean National Beverage Corp. and its subsidiaries. The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ( GAAP ) and rules and regulations of the Securities and Exchange Commission for interim financial information. The financial statements do not include all information and notes required by GAAP for complete financial statements. In our opinion, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Results for the interim periods presented are not necessarily indicative of results which might be expected for the entire fiscal year. These interim financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended May 3, 2008.

**2. INVENTORIES**

Inventories are stated at the lower of first-in, first-out cost or market. Inventories at January 31, 2009 are comprised of finished goods of \$19,571,000 and raw materials of \$19,356,000. Inventories at May 3, 2008 are comprised of finished goods of \$20,913,000 and raw materials of \$17,841,000.

**3. PROPERTY**

Property consists of the following:

	(In thousands)	
	January 31, 2009	May 3, 2008
Land	\$ 8,954	\$ 8,954
Buildings and improvements	41,919	41,697
Machinery and equipment	126,279	124,797
Total	177,152	175,448
Less accumulated depreciation	(122,351)	(117,809)
Property net	\$ 54,801	\$ 57,639

**Table of Contents**

Depreciation expense was \$2,511,000 and \$7,496,000 for the three-month and nine-month periods ended January 31, 2009, respectively, and \$2,461,000 and \$7,281,000 for the three-month and nine-month periods ended January 26, 2008, respectively.

**4. DEBT**

A subsidiary maintains unsecured revolving credit facilities aggregating \$75 million (the Credit Facilities ) with banks which expire through April 2013. The Credit Facilities bear interest at rates based, in part, on the amount borrowed and the earnings of the subsidiary. At January 31, 2009, interest rates ranged from LIBOR plus .3% to LIBOR plus .6% or, at the subsidiary's election, 1/2% below the banks' reference rate. At January 31, 2009, \$2.3 million of the Credit Facilities was used for standby letters of credit and \$72.7 million was available for future borrowings. The Credit Facilities require the subsidiary to maintain certain financial ratios and contain other restrictions, none of which are expected to have a material impact on our operations or financial position. Significant financial ratios and restrictions include: fixed charge coverage; net worth ratio; and limitations on incurrence of debt. At January 31, 2009, we were in compliance with all loan covenants and approximately \$25 million of retained earnings were restricted from distribution.

**5. STOCK-BASED COMPENSATION**

During the nine months ended January 31, 2009, there were no options granted, options for 13,800 shares were cancelled, and options for 53,320 shares were exercised at a weighted average exercise price of \$4.10. At January 31, 2009, options to purchase 609,799 shares at a weighted average exercise price of \$3.96 were outstanding and stock-based awards to purchase 3,239,086 shares of common stock were available for grant.

**6. RECENTLY ADOPTED ACCOUNTING STANDARDS**

In September 2006, the FASB issued SFAS 157, *Fair Value Measurements* (SFAS 157), which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. SFAS 157 was effective at the beginning of our 2009 fiscal year for all financial assets and liabilities and for nonfinancial assets and liabilities measured at fair value on a recurring basis. For all other nonfinancial assets and liabilities, SFAS 157 is effective at the beginning of our 2010 fiscal year. The adoption of SFAS 157 did not have a material impact on our consolidated financial statements. We are currently evaluating the impact related to our nonfinancial assets and liabilities not measured at fair value on a recurring basis.

In February 2007, the FASB issued SFAS 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159), which permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS 159 was effective at the beginning of our 2009 fiscal year. We did not apply the fair value option to any of our financial instruments; therefore, SFAS 159 did not have an impact on our consolidated financial statements.

**7. OTHER INCOME**

On September 18, 2008, the Company entered into a Settlement Agreement with Broward County, a political subdivision of the state of Florida, regarding the continued use of leased office facilities ( Leased Premises ) owned by Broward County. The Settlement Agreement required the Company to vacate the Leased Premises on or before January 31, 2009 in exchange for monetary consideration not to exceed \$1.375 million. During the third quarter of fiscal 2009, the Company vacated the Leased Premises, received payment, and recorded a gain, net of expenses, of \$.7 million, which is reported in Other income.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**OVERVIEW**

National Beverage Corp. develops, manufactures, markets and distributes a complete portfolio of quality beverage products throughout the United States. Incorporated in Delaware in 1985, National Beverage Corp. is a holding company for various operating subsidiaries. In this report, the terms we, us, our, Company and National Beverage mean National Beverage Corp. and its subsidiaries.

We consider ourselves to be a leader in the development and sale of flavored beverage products in the United States, offering the widest selection of flavored soft drinks, juices, sparkling waters and energy drinks. Our flavor development spans over 100 years originating with our flagship brands, Shasta® and Faygo®, each of which has over 50 flavor varieties. We also maintain a diverse line of flavored beverage products geared to the health-conscious consumer, including Everfresh®, Home Juice®, and Mr. Pure® 100% juice and juice-based products; and LaCroix®, Mt. Shasta®, Crystal Bay® and ClearFruit® flavored, sparkling, and spring water products; and ÀSanté nutritionally-enhanced waters. In addition, we produce Rip It® energy drinks, Ohana® fruit-flavored drinks and St. Nick ® holiday soft drinks. Substantially all of our brands are produced in thirteen manufacturing facilities that are strategically located in major metropolitan markets throughout the continental United States. To a lesser extent, we develop and produce soft drinks for certain retailers and beverage companies ( allied brands ).

Our strategy emphasizes the growth of our products by offering a branded beverage portfolio of proprietary flavors; by supporting the franchise value of regional brands and expanding those brands with distinctive packaging and broader demographic emphasis; by developing and acquiring innovative products tailored toward healthy lifestyles; and by appealing to the quality-price expectations of the family consumer. We believe that the regional share dynamics of our brands perpetuate consumer loyalty within local regional markets, resulting in more retailer sponsored promotional activities.

Over the last several years, we have focused on increasing penetration of our brands in the convenience channel through Company-owned and independent distributors. The convenience channel consists of convenience stores, gas stations, and other smaller up-and-down-the-street accounts. Because of the higher retail prices and margins that typically prevail, we have undertaken several measures to expand convenience channel distribution in recent years. These include development of products specifically targeted to this market, such as ClearFruit, Crystal Bay, Rip It, ÀSanté and Sundance®. Additionally, we have created proprietary and specialized packaging with distinctive graphics for these products. We intend to continue our focus on enhancing growth in the convenience channel through both specialized packaging and innovative product development.

Beverage industry sales are seasonal with the highest volume typically realized during the summer months.

Additionally, our operating results are subject to numerous factors, including fluctuations in the costs of raw materials, changes in consumer preference for beverage products and competitive pricing in the marketplace.

**RESULTS OF OPERATIONS**

**Three Months Ended January 31, 2009 (third quarter of fiscal 2009) compared to**

**Three Months Ended January 26, 2008 (third quarter of fiscal 2008)**

Net sales for the third quarter of fiscal 2009 increased 5.1% to \$129.4 million compared to \$123.2 million for the third quarter of fiscal 2008. The net sales increase reflects case volume growth of 3.7% for the Company's energy drinks, juices and waters and 9.8% for branded carbonated soft drinks. In addition, unit pricing increased 1.2% due to product mix changes and price increases instituted to recover higher raw material costs. This improvement was partially offset by a decline in allied-branded volume.

Gross profit approximated 28.7% of net sales for the third quarter of fiscal 2009 compared to 30.6% of net sales for the third quarter of fiscal 2008. The gross profit decline was due primarily to higher raw material costs and the inclusion of a \$.5 million business interruption insurance recovery in the prior period. Cost of goods sold per unit increased approximately 4.0%.

Selling, general and administrative expenses were \$31.9 million or 24.7% of net sales for the third quarter of fiscal 2009 compared to \$32.8 million or 26.6% of net sales for the third quarter of fiscal 2008. The decline in expenses is due to lower distribution and marketing expenses.

Other income includes interest income of \$177,000 (fiscal 2009) and \$194,000 (fiscal 2008). Also, included in other income for the third quarter of fiscal 2009 is income of \$.7 million from a legal settlement. See Note 7 of Notes to Condensed Consolidated Financial Statements.

The Company's effective rate for income taxes, based upon estimated annual income tax rates, approximated 37.3% of income before taxes for the third quarter of fiscal 2009 and 35.5% for the comparable period in fiscal 2008. The difference between the effective rate and the federal statutory rate of 35% was primarily due to the effects of state income taxes, nondeductible expenses and nontaxable interest income.

Net income was \$3.7 million for the third quarter of fiscal 2009 compared to \$3.3 million for the third quarter of fiscal 2008.

**Nine Months Ended January 31, 2009 (first nine months of fiscal 2009) compared to**

**Nine Months Ended January 26, 2008 (first nine months of fiscal 2008)**

Net sales for the first nine months of fiscal 2009 increased 2.0% to \$426.7 million compared to \$418.5 million for the first nine months of fiscal 2008. The net sales increase reflects case volume growth of 3.8% for the Company's energy drinks, juices and waters and 2.2% for branded carbonated soft drinks. In addition, unit pricing increased 3.5% due to product mix changes and price increases instituted to recover higher raw material costs. This improvement was partially offset by a decline in allied-branded volume.

Gross profit approximated 29.5% of net sales for the first nine months of fiscal 2009 compared to 30.7% of net sales for the first nine months of fiscal 2008. The gross profit decline is due to higher raw material costs and the inclusion of a \$1.4 million business interruption insurance recovery in the prior period. Cost of goods sold per unit increased approximately 5.4%.

**Table of Contents**

Selling, general and administrative expenses were \$99.0 million or 23.2% of net sales for the first nine months of fiscal 2009 compared to \$103.2 million or 24.7% of net sales for the first nine months of fiscal 2008. The decline in expenses is due to lower marketing and administrative expenses.

Other income includes interest income of \$626,000 (fiscal 2009) and \$934,000 (fiscal 2008). The decline in interest income is due to lower investment yields. Also, included in other income for the first nine months of fiscal 2009 is income of \$.7 million from a legal settlement. See Note 7 of Notes to Condensed Consolidated Financial Statements. The Company's effective rate for income taxes, based upon estimated annual income tax rates, approximated 36.2% of income before taxes for the first nine months of fiscal 2009 and 35.5% for the comparable period in fiscal 2008. The difference between the effective rate and the federal statutory rate of 35% was primarily due to the effects of state income taxes, nondeductible expenses and nontaxable interest income.

Net income was \$17.9 million for the first nine months of fiscal 2009 compared to \$16.9 million for the first nine months of fiscal 2008.

**LIQUIDITY AND FINANCIAL CONDITION**

**Liquidity and Capital Resources**

Our current sources of capital are cash flows from operations and borrowings under existing credit facilities. We maintain unsecured revolving credit facilities aggregating \$75 million of which \$2.3 million was used for standby letters of credit at January 31, 2009. There was no debt outstanding under the credit facilities. We believe that our capital resources are sufficient to fund our capital expenditures, dividends and working capital requirements for the foreseeable future.

**Cash Flows**

During the first nine months of fiscal 2009, \$25.0 million was provided by operating activities, \$1.7 million was used in investing activities and \$266,000 was provided by financing activities. Cash provided by operating activities increased \$12.7 million due primarily to an improvement in working capital requirements. Cash used in investing activities declined \$5.2 million due to an increase in net marketable securities sold and a decline in property additions. The \$35.7 million change in cash provided by financing activities is due to the effect of the cash dividend paid last year.

**Financial Position**

During the first nine months of fiscal 2009, our working capital increased \$22.4 million to \$111.8 million primarily due to cash provided by operating activities. Trade receivables and accounts payable decreased due to lower volume related to seasonality. Prepaid and other assets decreased primarily due to a decline in income tax refund receivables. The current ratio was 3.0 to 1 at January 31, 2009 and 2.3 to 1 at May 3, 2008.

**NEW ACCOUNTING STANDARDS**

See Note 6 of Notes to Condensed Consolidated Financial Statements for information about recently adopted accounting standards.
